Powering Business Worldwide

TAA-compliant solutions

Eaton offers a complete line of power and connectivity solutions certified to comply with the Federal Trade Agreements Act (TAA) for easy addition to GSA Schedules and other business contracts. TAA-compliant products are also ideal for any business or organization seeking IT solutions made in the USA and other free-trade-friendly countries.

Save time

- Complete solutions from a single source means less time spent on buying and implementation.
- Dedicated sales and support team ensures clear guidance on solutions and compliance.

Save money

- Avoid penalties by staying compliant with GSA Schedule contracts.
- Clean power extends sensitive equipment lifespan for longer use and less frequent replacement.

Reduce risk

- Vital services and information remain powered and accessible.
- Protect personnel, data and systems with secure technology.

Customers agree: Eaton's quality and value are second to none!

I would definitely recommend this product

"Secure KVM switch was a good value for the money. It has worked as intended with no problems thus far."

Paul Paul Paul
Verified Buyer

Another quality product

"I have utilized their products for over 20 years. From racks to PDUs to UPS systems and accessories, they never disappoint in number of options, quality, functionality and customer service."

IS Director
Green Bay, WI

Affordable and reliable

"Since its deployment, this UPS has been nothing but reliable when we needed it. We've had two power outages and because of the UPS, I had time to take care of critical systems."

Thomas_the_Tech
Little Rock, AR
