Eaton sets timeline for transition to NETWORK-M3 for Gigabit network management cards
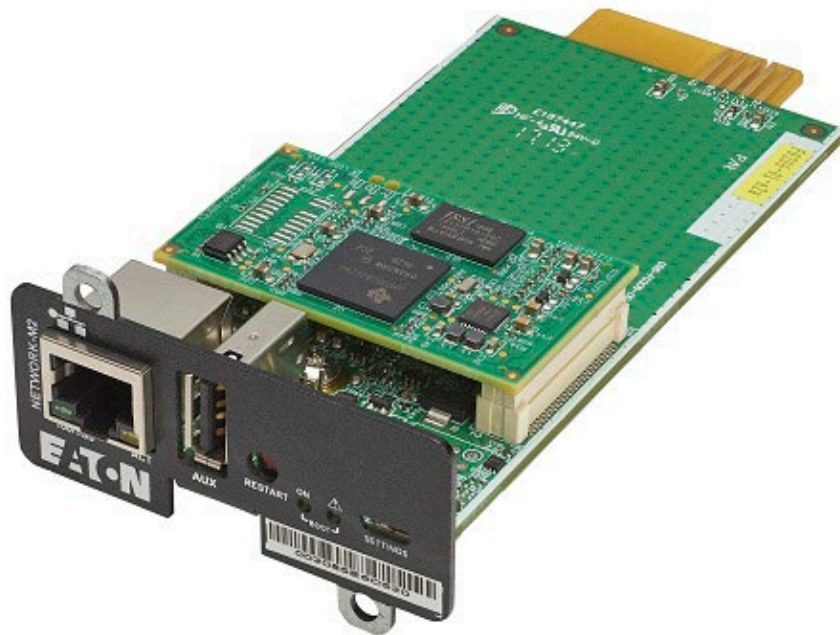

Eaton announces its intention to end of life the NETWORK-M2 by the end of 2023. The NETWORK-M2 will be fully replaced by the new NETWORK-M3 which will have the same form, fit, and function. Cybersecurity certifications and updates for the NETWORK-M2 will be supported for the warranty period of the host device or applicable service contract. Firmware for NETWORK-M2 and NETWORK-M3 will not be cross compatible. NETWORK-M3 will be compatible with all legacy Eaton products that were compatible with the NETWORK-M2.
