

Select Diagnostics

Select Diagnostics is our premium, diagnostics software which can diagnose, troubleshoot, repair and calibrate all systems on North American Class 3-8 commercial vehicles, regardless of make or model, when bundled with ServiceRanger® Pro diagnostics software.

- **All systems diagnostics for Class 3-8 vehicles**
- **Vehicle communication adapter and assorted connectors**
- **Over 18 vehicle makes and models**
- **Compatible with ServiceRanger diagnostic software, sold separately**

Plug and Play:

when plugged into the vehicle, the Select Diagnostics tool automatically detects the make and model of the vehicle and pulls up all current fault codes in the truck. No other software on the market offers this functionality.

Significant savings:

Beyond reduced licensing fees (vs. OEM software), Select Diagnostics allows your technicians to spend less time learning different software, reducing training time and improving your shop turn time.

Capabilities and systems covered

Capabilities:

- Read and clear fault codes
- Repair procedures
- Vehicle maintenance data
- System data
- Calibrations
- ECU reading and modification
- Vehicle technical data
- Diagrams
- Manufacturer technical updates
